DETAILED ACTION

Specification

The disclosure is objected to because of the following informalities:

In paragraph 1, line 1, after the numeral “2001”, the words --- now US Patent number 6,634,404 --- should be added.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by Kandle et al. (hereinafter “Kandle”) (US 3,340,719). Kandle discloses a pressing plate (12) having attached thereto a plurality of plungers (fig. 1) displaceable relative to the pressing plate (fig. 2), wherein the plurality of plungers are sprung (38) in bearings.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art listed on the attached PTO 892 are cited to show relevant pressing plates.
